

KICKR DIRECT CONNECT

smart cable

KICKR DIRECT CONNECT

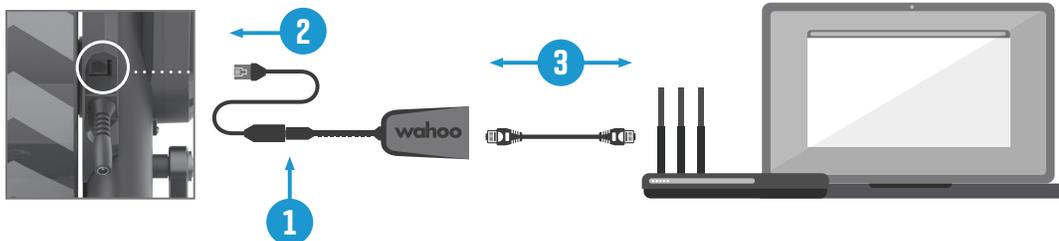

A hard wired connection that delivers the best virtual training and E-sports experience by reliably transferring your workout data, allowing you to ride or race without wireless interruption.

CUT THROUGH THE CLUTTER

When riding in urban areas or crowded wireless signal environments, KICKR DIRECT CONNECT allows you to plug the KICKR into your router and train online. You're never off the back due to a dropped wireless signal.

KICKR DIRECT CONNECT SETUP

- 1 Connect the KICKR DIRECT CONNECT pod and the KICKR quick disconnect cable together.
- 2 Plug the quick disconnect cable into the KICKR.
- 3 Connect the DIRECT CONNECT pod to your router or computer using an ethernet cable (not included).
